## Professional Objective:

Full-Stack Web Developer specializing in front-end and back-end development, with experience in low-code platforms, building automated workflows, and implementing API-driven integrations. Focused on translating business and operational requirements into stable, scalable, and maintainable web solutions, with a strong emphasis on efficiency and reliability.

## Work Experience

**Web & Data Developer – Palestinian Employment Fund(05/2024 - 11/2024) Gaza, Palestine**
- Developed and maintained web applications for the Ministry.
- Processed and analyzed data to support decision-making.
- Ensured security of data and web applications.

**Laravel Programmer – Beit Hanoun Municipality (02/2023 - 06/2023) Gaza, Palestine**
- Developed and maintained municipal services management system using Laravel.
- Optimized database queries, improving system performance by 40%.
- Implemented multi-factor authentication to enhance system security.

**Laravel Programmer – Alom Science Company (01/2023 - 05/2024) Riyadh, Saudi Arabia**
- Designed and developed RESTful API for an educational application.
- Developed interactive dashboard for student data analysis using Chart.js.
- Integrated e-payment system with local payment gateway.

**Full-Stack Web Developer – JSCPDN, UNDP Program (04/2022 – 12/2022) | Gaza, Palestine**
- Led development of an e-learning platform using Laravel.
- Implemented asynchronous file uploads, improving UX by 30%.
- Designed and optimized MySQL database for efficient data management.

**Developer – Polaris Company (09/2023 – Present) West Bank**
- Developed and maintained low-code applications and workflows using the Joget platform to support organizational processes.
- Designed and automated business processes, including form design, process flows, and user task management.
- Integrated Joget applications with external systems and databases using APIs and web services.
- Implemented data handling, validation, and transformation logic to ensure data accuracy and consistency.
- Monitored, tested, and optimized workflows to ensure performance, reliability, and scalability.
- Ensured application security, access control, and data protection in compliance with organizational policies.

## Education

**Islamic University of Gaza**
Bachelor of Science in Multimedia and Web Development

09/2017 – 09/2021
Gaza Strip, Palestine

## Skills

**PHP Laravel Development:** ● ● ● ● ●
- Extensive experience in developing applications using PHP Laravel, including planning, designing, developing, testing, deploying, and maintaining.

**Data Management:** ● ● ● ● ●
- Proficient in using YajraBox and DataTable libraries in Laravel for efficient table and data management.

**High-Performance Web Applications:** ● ● ● ○ ○
- Skilled in developing high-performance web applications using Next.js, with experience in implementing Server-Side Rendering (SSR) and Static Site Generation (SSG).

**Web Technologies:**
- In-depth knowledge of PHP and web technologies, including HTML, CSS, JavaScript, and jQuery.

**Version Control** ● ● ● ● ○
- Experience using Git and GitHub for version control and tracking changes.

**RESTful APIs & Mobile Applications:** ● ● ● ● ●
- Advanced knowledge in designing and developing RESTful APIs and mobile applications.

**Database Integration:** ● ● ● ● ○
- Experience in developing and integrating MySQL and MongoDB databases.

**User Interface Interactivity:** ● ● ● ● ○
- Expertise in applying and integrating Axios to enhance user interface interactivity and speed.

**Front-End Development** ● ● ● ● ○
Proficient in front-end development using Bootstrap and React.js.

**Low-Code / No-Code Platforms || Joget**
- Workflow Automation & Business Process Management (BPM)
- Form Design & Process Modeling

## Languages

- Arabic
- English

## Courses

**Programming And Databases course**
*Ministry of Communications and Information Technology*

07/2020 – 08/2020
Gaza, Palestine

**Information security and protection course**
*information technology college*

11/2014 – 12/2014
Gaza, Palestine

## Interests

— **Interests:** Self-education | Continuously exploring new technologies and programming languages | Applying knowledge in real-world web and data development projects
